Power Guide

Cutting down panels and getting splinter-free cuts doesn't require expensive stationary tools or two people. Festool plunge cut saws have been helping end-users save time, money, and rework, since their introduction in 1980. We have created a new easy-to-read educational brochure to answer some of the most common questions regarding the use of these extraordinary saws. Visit www.festoolusa.com/tsguide on September 15 to learn more.

Finish what you start.

Festool Abrasive Promo Packs

Get organized with these sanding assortment packs. Filled with the most common sanding abrasives, these systainers will make finding and storing your sandpaper faster than ever before. The unique systainer system also allows you to attach the sanding assortment to your Festool sander systainer for easy transport. The 5" assortment works with the Rotex RO 125 and the ETS 125 sanders. The 6" assortment works with the Rotex RO 150, ETS 150/3, ETS 150/5, LEX 2 150/3, and LEX 2 150/7 sanders.

SIPO are the toughest tenons.

FESTOOL®

Domino SIPO Assortment Pack
Item No. M0076
Price \$31

Festool Domino SIPO Assortment Pack

Manufactured from sustainable cultivated forests, the SIPO mahogany tenons are tough, and the ideal choice when you need extra strength or tenons for outdoor applications. They are mold and insect-resistant, and are stronger than biscuits, and won't slip or turn like common dowels. Domino tenons ensure perfect alignment and tight fitting joints every time. The assortment pack comes with a generous selection of each size domino, making it the perfect choice for your first project.

FESTOOL

Kapex KS 120 EB
Item No. 561 287
Price \$1300

Kapex KS 120 EB Sliding compound miter saw

The Kapex is the most advanced sliding compound miter saw in the market today. As the number one choice of professionals and serious hobbyists, this saw will make cuts that rival the finest trim work being done today. Engineered to be lightweight and compact, the KS 120 is the perfect saw for the work shop or the jobsite. Effective dust extraction, precise cuts, easy adjustments, and quality components are some of the features that should make this saw the number one choice of professional tradesmen.

Available Now!

Smarter

"...the engineering is smarter than any other portable saw I've used—there's zero deflection, even on acute, compound angle cuts."

Gary Katz, Nationally recognized author / carpenter

NEW PRODUCTS

Get the most from your Domino.

Festool Essentials:
The DOMINO DF 500 Q Joiner
with CT Dust Extraction System
Item No. M0073
Price \$29.99

**NEW
PRODUCT!**

Festool Essentials The DOMINO DF 500 Q Joiner with CT Dust Extraction System

This softcover book from Schiffer Publishing offers 160 pages of full color photographs explaining every feature of the Domino joiner and CT dust extractors, as well as how to get the most from the different accessories that are available for each machine. Pictures are used extensively to help the reader, as they explore the many features found on these tools. This book is an excellent resource for those who would like to get the most from these machines in a short amount of time. It makes an excellent addition to any woodworkers Festool library.

Available Sep 15!

“The Domino has cut the time it takes to build cabinet carcasses in half...it is faster and stronger than the rabbet and dado joint...and just as accurate.”

Nicholas V., Illinois

NEW PRODUCTS

The ultimate shop accessory.

FESTOOL

MFT/3 – Basic
Item No. 495 888
Price \$475

**NEW
TOOL!**

MFT/3 – Basic Multifunction table

Due to customer demand, the MFT/3 is now being offered as a basic unit without the guide rail system. The MFT/3 – Basic is the perfect complement to any shop or worksite. Use the MFT/3 – Basic as an out-feed table or as a work surface for sanding, jointing, clamping, or assembly. The perforated top is ideally suited for use with MFT clamping accessories, and the V-groove side rails are the same as the full version of the MFT/3, allowing you to upgrade later.

Available Nov 15!

Faster

“With the MFT, I now spend less time re-arranging tools and more time actually enjoying woodworking.”

Steve W., Colorado

Complete system integration

Combine two MFT/3's for a larger work surface

Uniform grid hole pattern for clamping

It's like watching a talent show.

FESTOOL

MFK 700 – Basic
Item No. 574 419
Price \$400

MFK 700 EQ – Basic Trim router with vertical base

When it comes to finishing edge banding or light edge routing, nothing compares to the power, ease of use, and modularity of the MFK 700 trim router. The Basic unit includes the vertical base, and is shipped in a cardboard box instead of a systainer. The standard base is 5" wide for improved stability in edge forming applications. Precision engineering, and micro adjustments make this trim router a must have item for the worksite or the workshop. The system can be upgraded with the optional horizontal base or parallel edge guide.

Available Nov 15!

Smarter

"My Festool router operates like a fine medical-grade instrument, making precise cuts that leave the competition in the dust."

Anthony A., Michigan

Dust extraction eliminates clean-up

Modular design makes this a multi-purpose tool

Micro-depth adjustment accurate to 1/256"
